27 May 1963

Dear Bill,

Per your request, I am enclosing copies of our instructions on how to prepare Engineering Change Proposals (ECP's) and Service Bulletins (SB's). Also enclosed is a copy of an ECP and its associated SB recently submitted by LAC on the System IXA installations. These examples should give you a fairly good idea of what we are looking for whenever engineering changes to the System IXA or XII are to be made.

I believe the instructions are quite complete, but don't hesitate to query us if there is something which isn't clear.

Sincerely,

SIGNED

Vern
